SUMMARY

Highly motivated Computer Science professional with expertise in **full-stack development, cybersecurity, and automation**. Proven track record of designing scalable solutions that enhance efficiency by up to **90%**. Experience founding and leading a tech company delivering custom business solutions. Passionate about building secure systems that drive measurable impact.

EDUCATION

Sardar Patel Institute of Technology (SPIT), Mumbai

B.Tech in Computer Science & Engineering with Minor in IoT

June 2024 – Present

Government Polytechnic Mumbai (GPM)

Diploma in Computer Science

June 2021 – May 2024

Achieved 96% overall score

TECHNICAL SKILLS

Languages: JavaScript, C++, Python, Java, SQL

Frameworks: MERN Stack (MongoDB, Express.js, React.js, Node.js)

Cybersecurity: Risk Assessment, Vulnerability Analysis, Threat Mitigation, Security Automation

Tools: Git, RESTful APIs, Cloud Platforms, IoT Development

Core Competencies: System Architecture, Process Optimization, Technical Leadership, Problem-Solving

PROFESSIONAL EXPERIENCE

Boutique Digital Solutions, Mumbai

July 2024 – December 2024

Founder & Full-Stack Development Lead

- Founded and led a tech company with 2-3 developers delivering custom software solutions
- Designed and developed **E-commerce Platform** using MERN stack with secure payment integration and user authentication
- Built **Inventory Management & POS System** with real-time tracking and automated analytics
- Managed end-to-end project lifecycle from client consultation to deployment
- Established business processes while maintaining client relationships

Saga Technologies, Mumbai

January 2024 – July 2024

Cybersecurity Analyst, Developer & Ops Head Intern

- Engineered a **MERN-based ticketing system** to optimize internal and external issue resolution
- Developed automation script that **reduced manual workflow from 45 minutes to under 3 minutes**
- Conducted **cybersecurity risk assessments** and implemented enhanced security protocols
- Oversaw tech operations for the **Dubai branch remotely**, ensuring seamless execution
- Collaborated with teams to identify inefficiencies and develop technical solutions

KEY PROJECTS

Feedback Management System

2024

- Replaced Google Forms-based feedback with **interactive web-based system**
- Implemented **real-time analytics** and role-based access with reporting dashboards
- Designed intuitive interface allowing administrators to track and analyze feedback efficiently

E-Commerce Platform

2024

- Developed **MERN-based e-commerce solution** with comprehensive product management
- Integrated secure payment processing and scalable order management
- Implemented responsive design ensuring optimal experience across all devices
- Optimized backend for high-traffic handling with efficient database design

ACHIEVEMENTS

- Developed multiple **enterprise-grade web solutions** for clients across various industries
- Recognized for excellence in **automation and cybersecurity initiatives** at Saga Technologies
- Built solutions improving **operational efficiency by over 90%**, saving hundreds of work hours
- Successfully managed remote technical operations while maintaining high performance standards

ADDITIONAL INFORMATION

Languages: English (Fluent), Hindi (Native)

Interests: Software innovation, ethical hacking, IoT development
