Experience

Cybersecurity Analyst Intern

Saga Technologies, India (Handled Dubai Operations)

Jan 2024 – June 2024

- Developed an automated script that significantly reduced organizational workload, decreasing processing time from 45 minutes to 2-3 minutes.
- Designed and developed a MERN-stack ticketing system for internal and external users to streamline issue resolution.
- Implemented an internal platform for managing ticket histories and enhancing team productivity.
- Assisted in cybersecurity operations and analysis, applying best practices in incident handling and risk assessment.

Freelance Full-Stack Developer

June 2024 - Sept 2024

- Built scalable web applications and platforms tailored to clients' needs.
- Enhanced client experience by designing efficient features and optimizing site performance for diverse users.

Projects

Feedback Management System

2024

- Designed a web-based feedback system to efficiently collect, analyze, and store user feedback.
- Integrated role-based access control for users and admins.

E-Commerce Clothing Platform

2024

- Created an intuitive UI for customers and implemented secure payment integrations.
- Developed robust APIs for order management and inventory tracking.

Achievements

- Successfully developed and deployed automated scripts and scalable web solutions for clients.
- Recognized for outstanding performance as a cybersecurity intern at Saga Technologies.
