SUMMARY

Highly motivated Computer Science professional with a strong foundation in **frontend development** and exposure to full-stack concepts. Proficient in building scalable and user-friendly web applications with a focus on clean code and efficient performance. Eager to contribute to innovative projects and collaborate within a dynamic team environment to deliver high-quality user experiences.

EDUCATION

Sardar Patel Institute of Technology (SPIT), Mumbai

B.Tech in Computer Science & Engineering with Minor in IoT

June 2024 – Present

Government Polytechnic Mumbai (GPM)

Diploma in Computer Science

June 2021 – May 2024

Achieved 96% overall score

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS

Frameworks/Libraries: React.js, MERN Stack (MongoDB, Express.js, Node.js)

Tools: Git, Webpack, RESTful APIs

Core Competencies: Responsive Design, UI Development, Problem-Solving, Collaboration

PROFESSIONAL EXPERIENCE

Boutique Digital Solutions, Mumbai

July 2024 – December 2024

Founder & Full-Stack Development Lead

Led the development of the **E-commerce Platform frontend** using React.js, ensuring a responsive and user-friendly experience. Implemented secure user authentication and integrated payment gateways within the frontend application. Developed the frontend for the **Inventory Management & POS System**, focusing on real-time data display and intuitive user interactions. Managed the frontend aspects of the project lifecycle, from design implementation to deployment.

Saga Technologies, Mumbai

January 2024 – July 2024

Cybersecurity Analyst, Developer & Ops Head Intern

Engineered the **frontend of a MERN-based ticketing system** to streamline issue resolution for internal and external users. Developed automation scripts that significantly improved workflow efficiency, demonstrating problem-solving abilities. Collaborated with backend engineers to ensure seamless integration of frontend components with APIs. Gained experience in understanding user needs and translating them into functional frontend features.

KEY PROJECTS

Feedback Management System

2024

Developed the **interactive web-based frontend** using modern JavaScript, replacing a static form-based system. Implemented **real-time data visualization** and role-based access control within the user interface. Designed an intuitive user interface for administrators to efficiently track and analyze feedback.

E-Commerce Platform

2024

Developed the of a MERN-based e-commerce solution with a focus on user experience and product presentation. Integrated secure payment processing interfaces and implemented efficient order management workflows on the frontend. Ensured a **responsive design** for optimal viewing and interaction across various devices.

ACHIEVEMENTS

Developed user-friendly and efficient **web interfaces** for multiple client projects. Contributed to projects that significantly improved **operational efficiency**, demonstrating the impact of effective frontend solutions. Gained practical experience in the full software development lifecycle, including frontend design and implementation.
